Education

Texas Tech University

Bachelor of Science in Computer Science
GPA: 3.6

[Lubbock Tx]
[2027]

TECHNICAL SKILLS

Python, Java, C, C++, JavaScript, HTML, CSS, React, Node.js, SQL, MongoDB, Firebase, Git, GitHub, Linux, Windows, Object-Oriented Programming (OOP), Agile/Scrum methodologies.

Experience

[Technical Assembly and Software Integration Intern]

[Forney Tx]

Motorola Solutions

[July 2024-August 2024]

- Supported the assembly and software configuration of camera and tech systems, focusing on ensuring seamless hardware-software integration.
- Flashed firmware, validated software updates, and performed troubleshooting to resolve system e Collaborated with engineering teams to optimize device performance through both hardware adjustments and software patches.
- Developed technical proficiency in embedded systems, system testing, and real-time problem solving.
- Built a strong foundation in systems engineering, debugging, and technical documentation.

Projects

Weather App using API

- Created a weather application that retrieves real-time data from the OpenWeatherMap API.
- Implemented API request handling, asynchronous data fetching, and JSON parsing with JavaScript.
- Developed a clean, user-friendly interface to display temperature, weather conditions, and forecasts.
- Strengthened understanding of RESTful APIs and asynchronous programming concepts.

Activities

Organized and hosted large-scale social events by renting venues and managing event logistics.

Generated up to \$3,000 in profit per event through strategic marketing, ticket sales, and partnerships with local businesses.

Coordinated promotions, venue agreements, and team operations to maximize attendance and revenue.

Developed skills in entrepreneurship, marketing, budgeting, and customer engagement.
